I'm looking for a role as a **Web Designer** and **Front-End Developer**, leveraging my 6+ years of experience in Business Intelligence & data analytics. Passionate about responsive design, and intuitive interfaces, I'm ready to bring my skills to innovative web projects.

Education

Web Designer Course
"Web Designer & Front End Course" at Musa Formazione, 2024 - current.

Data Analyst Course
"Data Analyst Course" at Epicode school, 2022.

Master's degree
"International Relations" at Ca' Foscari University of Venice, 2010- 2013

Bachelor's degree
"Foreign Literature & Languages" at Cà Foscari University of Venice, 2007-2010.

Expertise

- Figma
- HTML, CSS, Bootstrap & JS
- BI tool such as Tableau & PowerBI.
- Git&GitHub.
- WordPress

Work Experience

Consultant @ Capgemini
2024 – present

- I design and develop interactive dashboards in Tableau to visualize data, enabling data-driven decision-making and insights.
- I provide expert advice and solutions to businesses, helping them improve performance, solve problems, and achieve their goals.

Business Intelligence @ Jakala
2022 – 2024

- I specialize in creating customized Tableau dashboards connected to BigQuery to meet client requirements in international projects.
- Closely collaborating with project manager and project owner, I assist and contribute to all facets of project management.

Master Data Analyst @ Kering Eyewear
2017 – 2022

- I ensure the integrity of master data within critical systems, managing data quality processes together with IT teams. I play a key role in data governance and maintenance, aligning master data rules with business requirements to ensure consistency across financial systems.
- I create reports aligned with business and marketing objectives. I manage and analyzing collected data, overseeing R&D projects, and providing support to department colleagues and sales team.

Stock Assistant @ Burberry Asia Pacific
2015

- I manage inventory, ensuring stock levels are accurate and replenished as needed.
- I assist with organizing products and supporting stocktaking and inventory updates.
